

SURVEY RESULTS REVEALED

2024

A Note from Our Leadership

Dear Therapies for Success Families and Colleagues,

As we celebrate 40 years, we are filled with gratitude and pride. The results of our 2024 survey inspire us and reaffirm our dedication.

Our programs now address a full range of communication disorders—from speech and language to literacy, social thinking, and myofunctional therapy. The success of these research-based programs has been truly life-changing for our clients.

Through personalized evaluations and treatment plans, we help our clients overcome challenges and reach their future goals. We teach them the importance of sacrifice and perseverance—skills that build determination, grit, and the ability to face adversity. We model for our clients.... ***Your current self must make sacrifices for your future self to thrive.*** That means ignoring the ubiquitous distractions available on our phones, doing homework when we feel like watching tv, and getting back on our feet when life knocks us down.

We are committed to staying at the forefront of research, ensuring we provide the most effective, collaborative, coordinated, comprehensive and customized care to help our clients thrive and grow into leaders. As Vince Lombardi said, **“Leaders are not born, they are made.”**

Thank you, parents and colleagues, for your trust and partnership. **Together, we’re helping our children think like leaders, solve their problems, act with integrity and lead us into the next generation.**

With immense gratitude, we thank you.

Jodie Schuller, M.A, CCC-SLP, COM

Speech-Language Pathologist
Literacy Director

Tessa Floodberg LaPointe M.S., CCC-SLP
Speech-Language Pathologist
Social Thinking Director
Preschool Director

Mission Statement

The Therapies for Success Promise: *Give us 4 months, and we'll give you a brighter future!* We are here to benefit individuals who are struggling academically, socially and/or developmentally, regardless of diagnosis. Using our unique **big picture approach**, we provide coordinated, customized and comprehensive treatment plans to **help our students achieve academic, social and personal success today, tomorrow and for their brightest futures.**

Our intervention plans are:

- **Coordinated** with fellow team members, educators, medical providers and parents to meet developmental milestones and state standards
- **Customized** to leverage our student's strengths and build skills in areas of deficits or challenges
- **Comprehensive** to target the foundational gaps in speech and language that impact students' abilities to read, comprehend, write, spell, solve math problems and interact socially....to help students communicate effectively during oral and written expression

We are committed to helping our students find their islands of competence and enabling them to share their unique gifts with the world!

Our Overall Impact on School Performance

100%

100% of our parents reported significant improvement in skill level!

100%

100% of our parents reported exceptional progress in school!

“

Chloe has an A in English and an A in Math...it's (been) amazing to watch her growth this (past) year! We know that you and your team had much to do with that success, and we are eternally grateful. Thank you!

Tracy L, mother of Chloe

Marc has been accepted at 7 universities! I remember many years ago being concerned that this day would never happen given his (former) comprehension difficulties and socialization issues. I want to take this opportunity to thank the Schuller Team for helping him overcome many of these issues and teaching him various coping mechanisms. This is a fantastic day!

George K, father of Marc

“

We are so thrilled with Hudson's results! We are beyond grateful to the staff (for) the dedication and patience they have for Hudson. We are most excited to see the confidence Hudson is developing in his own abilities and his willingness to independently work on projects/homework.

Sophia L, mother of Hudson

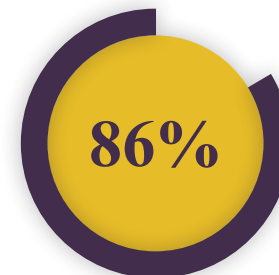

We are all so grateful we enrolled Zoe in your (literacy) program. Her confidence is WAY up and there are no more tears or frustration. She took the ACT last July. We wish the other scores were AS HIGH AS THE READING, but we are still super stoked about this!

Kristie N, mother of Zoe

Our Overall Impact on Attitude Towards School

91% of our parents reported extraordinary improvement in their children's overall confidence level!

86% of our parents reported dramatic improvement in their children's desire to do their best work!

100%

100% of our parents reported impressive growth in the ability to share personal stories!

100%

100% of our parents reported remarkable improvement in speech clarity!

100%

100% of our parents reported dramatic progress in the ability to ask and answer questions!

100%

100% of our parents reported significantly improved sentence structures!

“

Jodie (and her team) are the epitome of high level, professional practitioners.... (they have) helped to transform our son into a young man who is able to communicate normally, just like his friends.

Ann B.H., mother of Gunner

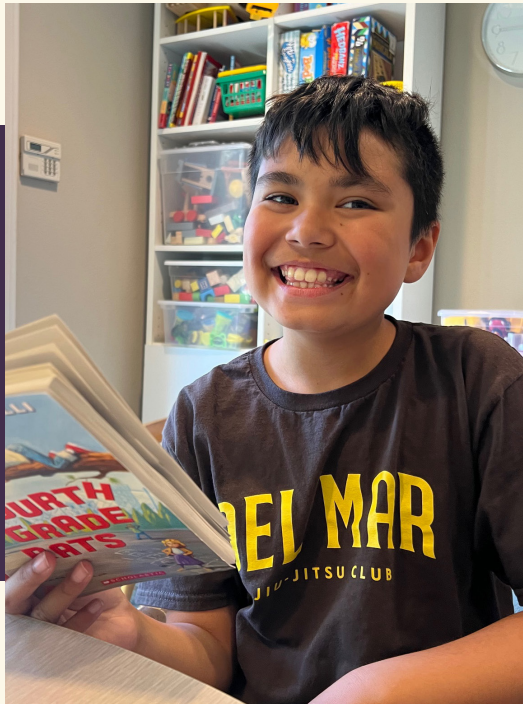

“

My son wasn't talking at 2 years old. The therapist took great care and consideration (in) developing a program that sky-rocketed his language and speaking. I cannot recommend Schuller (and Associates) enough---now my son never stops talking.

Meghan M, mother of Jackson

Our Overall Impact on Reading Fluency

“

The professionals at Jodie Schuller & Associates have been wonderful for our child. The literacy specialists have been especially beneficial, helping our child go from being 1 ½ years behind in reading to being well above his grade level.

Matthew S, father of Louis

I don't think, if you were to meet him now, you would ever know that he had dyslexia. If you were to watch him write or hear him read, you would never be aware that he (had) moderate to severe dyslexia... my husband and I are so blessed that he's here.

Cecilee O, mother of Ryan

100%

100% of our parents reported outstanding progress in phonics acquisition!

100%

100% of our parents reported impressive improvement in the ability to break words into syllables!

100%

100% of our parents noticed dramatic growth in reading speed and accuracy!

Our Overall Impact on Reading Comprehension

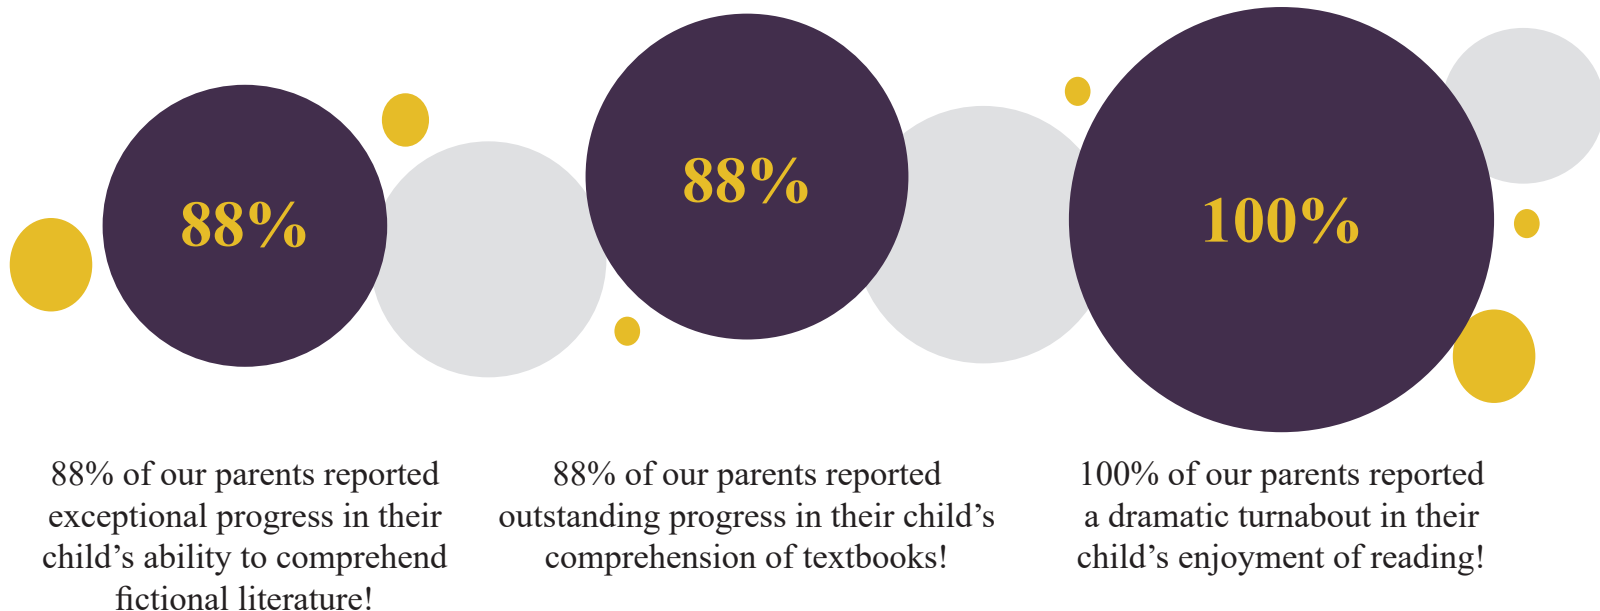

“

While the academic growth (was) both measurable and incredible, I am even more excited to see how Maris's confidence grew in her reading. She craves reading time now and quickly reads through book after book. She doesn't remember ever struggling to read and delightfully tells people that she has always loved reading. She asks to read to her little sister at night and often asks if she can read to me as well.

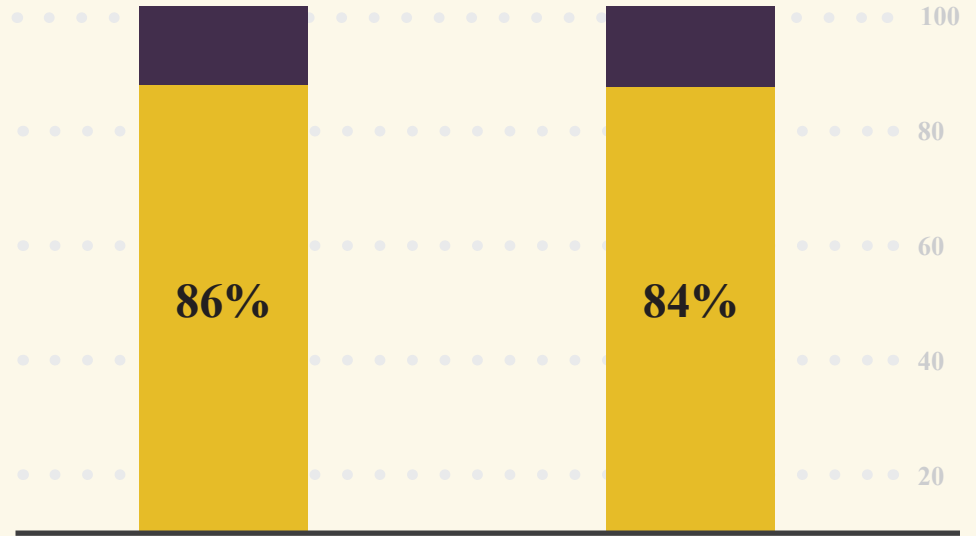

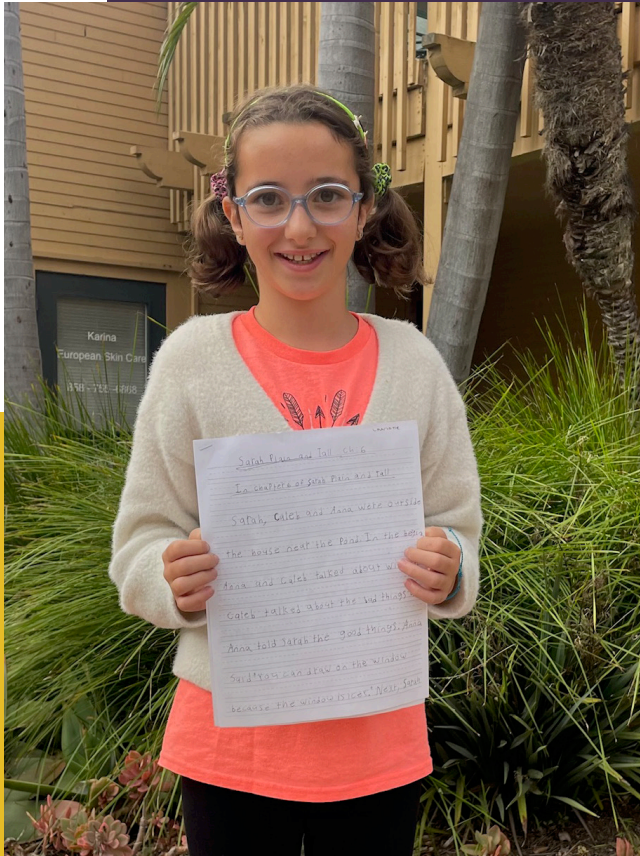

Cheyenne K, mother of Maris

My daughter went from being a non-reader to now comprehending at grade level. The team at Therapies for Success gave her the tools and the critical thinking skills to successfully navigate grade level books. She has tremendous self-confidence, and she loves to read!

Aude R, mother of Charlotte

Our Overall Impact on Written Expression & Executive Functioning

86% of our parents reported exceptional gains in their child's mastery of spelling!

84% of our parents reported dramatic progress in their child's ability to write essays!

“

My son has made incredible progress in his writing in just 6 months of working with his literacy specialist. She has provided him with practical and invaluable tools to be a successful and confident student. He now looks forward to writing essays!

Sophia, L, mother of Hudson

My son's writing abilities were....the most difficult hurdle for him. When he came here, he was fearful of even writing one sentence. Now he can sit down, and in 20 minutes, he can write an entire page..

Erin G. mother of Turner

Our Overall Impact on Math Mastery

“

Since my daughter started math (intervention) with Schuller & Associates, she has improved her math skills and gained a lot of confidence in order to do problems and quizzes at school. I highly recommend adding math (services) for your child with Jodie Schuller (and Associates).

Aude R, mother of Charlotte

86%

86% of our parents reported impressive gains in their child's attitude towards math!

100%

100% of our parents reported exceptional growth in their child's confidence with math!

Our Overall Impact on Friendships

“

Your group was the one place (our daughter) felt accepted. It held her together...it held all of us together. It was such a positive experience!

Stephanie E, mother of Emma

I'm so excited to see Wayne laughing with other kids and able to talk with them!

Cindy, mother of Wayne

100%

100%

“

With other kids, Edyn would use parallel play with no interaction or speaking, and with adults, she hid behind me (painfully shy, sometimes in tears). I tried three different therapists with little progress and then was referred to Therapies for Success. Edyn learned so much from social thinking about how to handle difficult emotional situations. Without this therapy team, my daughter's future looked bleak. Now we will see how far she can go!

Tiger B, father of Edyn

Our Families' Overall Satisfaction

91% of our parents would recommend our services to others!

91% of our parents were completely satisfied with their children's results!

“

Thank you from the bottom of my heart. You have changed the trajectory of a life. You will always be remembered by our family and especially by Peter. Thanks for being so kind and so firm.

Lisa L, mother of Peter

Because of you, she came out (of this situation), not just surviving, but thriving. You were with us through the dark teen times. We are so fortunate to have found you for our daughter. She is such a happy soul now.

Becky P, mother of Natalie

A big thank you to the staff for all the support and teaching being provided. It has been such a positive experience for Joel!

Elaine M, mother of Joel
